

BEST WAY TO HAVE A HAPPY HOME LIFE

Hire a professional organizer

Even in the most perfect of dream houses, stuff piles up. You'll have to deal with it eventually, whether it's time to down-size or you just want to be able to get your car in the garage again. Marla Ottenstein doesn't care if you call it Swedish death cleaning or the less-ominous sounding life-changing magic of tidying up; she just wants

to help you do it so you can enjoy a happy home life. With compassion and confidentiality, she makes short order of every kind of clutter and leaves you with a system and a mindset to ensure it never comes back. Read her monthly column in the Naples Daily News, or sign up for one of the regular classes she teaches through the FGCU Renaissance Academy. And call on her when you could use a helping hand with your home life. www.professionalorganizerflorida.com.
